HARD TO TELL

What The Verdict of a Jury
Will Be.

**John Wilson Cleared and Will Not
be Punished For Killing**

Alex Wright.

After having been out for four days, the jury in the case of John Wilson brought in a verdict of not guilty, Tuesday morning. Monday afternoon the jury came into court and announced that it had been unable to reach a decision. Judge Cook sent them back to their room, telling them they still had a month to deliberate. On the following morning the three jurors who were holding out for conviction gave in and the verdict of acquittal was brought in. The result was received with surprise by every body who heard the evidence. The best the defense hoped for was a hung jury. The verdict is one of those decisions that are beyond the understanding of those who have never had experience with petit juries.

It was generally conceded that the case was the worst one on the docket, and Wilson himself was probably very much surprised at the good fortune the jury so unexpectedly thrust upon him.

He was indicted for killing an unarmed man named Alex Wright, who was participating in a bran dance near Fruit Hill, Ky., Aug. 11, 1900, with no thought of harming any one when. Wilson, then a constable, suddenly appeared in the dancing ring and shot Wright dead and fired several shots at his father, Dick Wright, who fled from the ring and there by saved his life.

UNUSUAL DAMAGE SUIT

Decided in the Circuit Court at Lexington.

Judge Parker in the Circuit Court at Lexington passed upon the petition of Luella Thurman for \$10,000 damages against the southern railway of Kentucky. She alleged that the brakeman forced her to go into the negro compartment, and when she attempted to return to the white compartment the brakeman said she belonged to the disreputable race. Judge Parker held that the railroad was liable for damages for alleged insulting language by the brakeman, but not liable for the brakeman mistaking her for a negro.

ASYLUM LOSES

Damage Suit Brought By Bank of Hopkinsville.

The damage suit of the Bank of Hopkinsville against the Commissioners of the Western Asylum for the Insane was tried Monday and a verdict of \$300 given against the asylum. The suit was for \$5,000 damages for interfering with the water power of Wood's Mill, located on the stream below the asylum. The water supply of the asylum is taken from the east fork of Little River.

ELGIN-GOODE.

Young People of Kelly Neighborhood Take Marriage Vows.

Alpheus Elgin and Miss Mollie Goode, well known young people of Kelly, were married at the home of Rev. Alex McCord, the officiating minister, Monday.

NORRIS-CAYCE.

Pretty Wedding of Young People
Near Beverly.

Mr. B. F. Norris and Miss Ida Cayce, the pretty daughter of Mr. I. H. Cayce, of Beverly, were united in marriage last Wednesday evening at 7 o'clock. Elder T. D. Moore, of this city, officiated.

COTTAGE DESTROYED.

Flames Made Great Headway
Before Water Was Available.

A cottage on East First street, occupied by Mrs. Connally, was destroyed by fire Tuesday night. There was no hydrant near and the hose had to be pieced in order to reach the house. This caused some delay and when a stream was turned on, the flames had made such headway that it was impossible to save the building. It is not known how the fire originated. The loss was total.

HICKS HITS IT.

**Severe Windstorm and Heavy
Rain Arrived on time.**

Hicks has hit the weather in his March forecast to a dot thus far. The severe windstorms predicted for this section arrived on time and the heavy rain fell as forecast. The general storms over the Ohio valley, with heavy rain and thunder storms over the South all made their appearance. Some very stormy and severe weather is predicted for the latter part of the month, with a very cold wave for the season.

BLOODY RAIN.

**A Curious Phenomenon Reported
in Sicily and Southern Italy.**

Palermo, Sicily, March 10.—Ever since last night a heavy red cloud has extended over the city, the sky having a deep red. The rain now falling resembles drops of blood.

This phenomenon called "bloody rain" is attributed to dust from the African deserts, transported by the heavy south wind now blowing.

TELEPHONE RATES.

Regulated by the Frankfort City Council.

Frankfort, Ky., March 13.—The City Council passed an ordinance last night regulating telephone charges by the companies doing business in this city. The maximum rates are fixed at \$20 a year for the business houses, \$15 a year for offices and \$12 a year for private residences, and a fine of \$50 a day is imposed for violation of the ordinance.

VICTIM OF PNEUMONIA.

Wade Hampton, Well-Known Farmer, Dies Near Pem-
broke.

Wade Hampton, a well known farmer, died Tuesday morning at his home one mile from Pembroke. Death was due to pneumonia, from which he had been a sufferer for about ten days. He was 60 years and leaves a widow and several children. The interment took place in the family burying ground Wednesday.

THE SEBREE FIRE.

**Loss will Probably Reach \$75,000
—Partially Insured.**

A very destructive fire visited Sebree last Friday night, destroying a hotel, (the old Sebree House) Press Hampton's residence, a grocery and several other small buildings. All were frame structures. The loss will probably foot up about \$75,000. Most of the property was insured, covering something like one half of the loss.

DIED IN HOPKINS.

Former Christian Countian Passes Away Aged 65.

Thomas Harris, formerly of this county, died at his home in Hopkins county last Friday. He was about 65 years old and leaves a widow and two children. He moved to Hopkins about six months ago.

A woman's strength is more potent when robed in gentleness.

HARRISON DEAD.

One of The Real Statesmen of
The Republican Party.

**Pneumonia Carries Him Off After
A Brief Illness—Funeral
Sunday Afternoon.**

Indianapolis, Ind., March 13.—Gen. Benjamin Harrison died at 6:45 this afternoon, without regaining consciousness. His death was quiet and painless, there being a gradual sinking until the end came, which was marked by a single gasp for breath as life left the body. He had been ill with pneumonia for less than a week. He had been unconscious for hours before his death.

The Funeral.

The funeral of ex-President Harrison will take place next Sunday afternoon at 2 o'clock. The services will be held in the First Presbyterian church, of which Gen. Harrison was a member for nearly fifty years. The Rev. M. L. Haines, pastor of the congregation, will have charge of the services.

This afternoon it was decided at a meeting of Gov. Durbin with a number of other State officers that the body should lie in state in the rotunda of the Capitol all day Saturday. The highest honors in the power of the State of Indiana to pay will be rendered to the remains of the dead statesman.

To-morrow morning a meeting will be held in the office of the Governor to perfect the details of the funeral. It has been decided that the honorary pall-bearers shall be the members of his Cabinet.

Gen. Harrison's Wealth.

Gen. Harrison's wealth is variously estimated, public opinion rating it as high as half a million dollars. Those best informed about the ex-President's affairs, however, say he was worth about \$250,000 or \$300,000. At the time he was elected President he was reported to have accumulated \$125,000 from his law practice, and this has at least been doubled since that time. Of late years his practice, owing to his great reputation as a constitutional lawyer, was very lucrative. His fee in the Venezuelan boundary dispute, in which he represented the South American republics, was \$100,000.

Wanted His Son Reinstated.

Had it not been for the illness of ex-President Harrison mandamus proceedings would probably be pending now to compel the administration to restore Russell Harrison to his rank in the volunteer army. Shortly before the adjournment of congress the members of the Indiana congressional delegation were informed that Gen. Harrison, who has been smarting under the treatment of his son by the administration, had determined to have recourse to the courts to remove the blot upon the military record of the family, which has been preserved for several generations untarnished. The ex-President felt that his son was summarily dropped from the army because of his (the ex-President's) public criticism of the policy of the administration in dealing with the new possessions. To preserve the record of the family and to secure what he considered justice, he proposed to have the matter tried in the courts. The members of the Indiana delegation called into conference prominent administration leaders, in the hope of compromising matters, but practically no progress had been made when the illness of Gen. Harrison was announced.

It was decided not to announce the marriage until the groom could go to Sturgis and break the news to the girl's parents in person. Mr. Barkley is employed in the establishment of N. Wile & Co., grocers, of 848 West Market street, and after his marriage the rush of holiday trade came on and rendered his visit to his bride impossible for the time.

It has just become possible for the belated groom to take his long anticipated vacation, and he left Sunday for Sturgis to bring back his wife.

INFANT SON

of Mr. Hall Only Survived Mother
Five days.

The infant son of Mr. Edgar A. Hall, of Pembroke, died Tuesday morning. Its mother predeceased the little one to the grave only two weeks before. Mr. Hall has the sympathy of a host of friends in his double affliction. The remains of the child were placed by the side of those of its mother in the Pembroke cemetery Wednesday.

SMALL BLAZE.

At an early hour Wednesday morning Hanbery & Shryer's warehouse was discovered on fire. The casing of one of the windows had caught in some way, but the flames were extinguished without much difficulty. The loss amounts to only a few dollars.

Man is like fire, and woman like straw. The devil blows between.

WILLIAM J. DEBOE.

What They Think of Our Junior Senator in Washington.

This is what the Washington Mirror has to say about our junior Senator:

"William J. Deboe—junior Senator from Kentucky—possesses ability that any man in the Senate of the United States. Has practically no knowledge of public affairs. Was elected more by accident than otherwise. Has few friends among public men, and no enemies. He was unknown except in his immediate neighborhood, until a Re-

WILLIAM J. DEBOE.

publican legislature, in a Democratic State, elected him to the Senate. During his four years of service he has done nothing. If he were to serve another four years, or ten times four, the result will be the same. He is both a physician and a lawyer, and has never reached any eminence in either profession. He seems to understand his mental limitations, and does not presume to be other than what he really is. Few people know him, and those who do not have no interest in forming his acquaintance. At the expiration of his present term he will retire to private life, and no more will ever be heard of him. This will be it should be."

SECRET MARRIAGE.

of Sturgis Girl's Secret Kept for
Four Months.

Louisville, Ky., March 12.—A story of a marriage that was kept a secret for four months, and a delayed honeymoon came to light this morning. Last October Miss Fan-
nie S. O'Nan, the daughter of Judge O'Nan of Sturgis, Ky., came to Louisville on a visit, and while here met Mr. O. H. Barkley, an old sweetheart, whom she had not seen since the day of her first love. The old flame was rekindled, and the couple went quietly to Jeffersonville and were married.

It was decided not to announce the marriage until the groom could go to Sturgis and break the news to the girl's parents in person. Mr. Barkley is employed in the establishment of N. Wile & Co., grocers, of 848 West Market street, and after his marriage the rush of holiday trade came on and rendered his visit to his bride impossible for the time.

It has just become possible for the belated groom to take his long anticipated vacation, and he left Sunday for Sturgis to bring back his wife.

HAS NOTABLE RECORD.

Gen. Sir Henry Evelyn Wood, Who May Arrange for Peace with the Boer Leaders.

Sir Henry Evelyn Wood, who, it is reported, will soon go to South Africa empowered to treat for peace with the Boer generals, is the adjutant general of the British army. It is understood that this movement of the government to form a commission to treat with the Boers was inspired by the idea that it is not believed to mean that Gen. Wood will go in a military capacity, but rather in a diplomatic one. He would, therefore, hardly be sent as a successor to Lord Kitchener. Sir Evelyn is one of Great Britain's most notable soldiers. He entered the navy in 1852, and after winning distinction in that

DULL WEEK.

In Circuit Court And Minor Cases Hold Attention.

The Acquittal of John Wilson Principal Feature of The Week.

This has been a dull and uneventful week in Circuit Court. The conclusion of the Wilson case and the verdict in the Asylum damage suit, left the docket for the week with nothing to enlist public interest.

Old and minor civil cases have been taking up the time for several days.

DR. S. F. GANO DEAD.

Was Scott County's Oldest Citizen.

Georgetown, Ky., March 12.—Dr. S. F. Gano died this afternoon at 3 o'clock. He had lived until the 2nd day of April he would have been ninety-four years of age. He knew Georgetown when it was a straggling village and had been a part of it for nearly a century. For years he was a leading physician of the county. He was a prominent member of the Baptist church, and for many years had been a member of the Board of Trustees of Georgetown College, and one of the Executive Board. His wife, who is in feeble health, survives him.

Gano was the oldest citizen of Scott county, and was the eldest son of Richard M. Gano, who settled in Georgetown in 1800, volunteered in the war of 1812 as Major of Scott's regiment, First Battalion; commanded the regiment at the battle of the Thames, and was breveted a Brigadier General. Dr. Gano was a brother of the late Elder John A. Gano, for many years a noted minister of the Christian church, and was the father in law of the late Spencer C. Long, at one time a resident of Louisville.

GEN. SIR EVELYN WOOD. Selected to Arrange for Peace with the Boer Generals.

He was a captain in 1861 and a major in 1862. He served through the Indian campaign of 1868, fought with Wolsey in the Ashantee wars, Gano became a captain with the 10th and soon astonished his friends by turning to the law. He was called to the bar in 1872, but rejoined the army for the Zulu war. He was made a K. C. B. in 1879 and was a major general in 1880. He arranged the peace of 1881 in Transvaal in that affair, and afterward commanded the Egyptian army. In 1897 he was made adjutant general.

“Put down the novel,” said the patient. “I am tired of being read to. Talk to me awhile about nursing. Aren’t you afraid you will be crowded out?”

“Not in the least,” answered the young woman. “There is nothing alarming to us in the situation. The girls who, on the outbreak of every war or the publication of every novel treating of wars, are seized with an uncontrollable desire to do grand things in the service of suffering humanity are not a bit dangerous to us. They have an idea nursing is just about what I have been doing, that it consists solely of such pleasant duties as reading aloud from the pages of the latest books, of dressing becomingly in the uniform of a nurse, almost any woman with any pretensions of comeliness looks well in a sun-bonnet gown, white apron and cool, white collar and cuffs—or, at most, bathing the arm of an interesting hero with sweetly smelling cologne.”

“It doesn’t take the majority of these girls long to be disillusionized. They early discover the hard work that is attached to the calling. I had to go through a severe schooling before I was qualified to nurse. No, in answer to a question, ‘I can’t truthfully say it is what I should choose as my life work if I had my choice. But, then, the pay is comparatively good.”

“For my part, I consider nursing school the greatest of the gentle drudgeries. And then, the pay is not so good. Nursing brings in more money than the little typewriter and stenographer gets; it is more remunerative than bookkeeping, and, of course, pays better than being a saleswoman in a store. But it certainly has its drawbacks. I meet all classes of people, a great many of them inconsiderate and ill natured. For the most part they are people of the medium or better class, for the other kind cannot afford trained nurses—but their ability to pay very frequently does not mean good breeding and gentility.”

“So the girls who go into the business from unbusinesslike motives soon leave the field to those who enter it from necessity. Right here to-day there is a young woman in a sanitarium as a result of her experience. Her father is an army officer and she has tried to be a nurse. What she saw and encountered during her short trial proved too much for her, and now she is a victim of nervous prostration.”

CURING THE ROMANTIC.

Actual Experience the Remedy for Many a Girlish Ambition.

One young woman who makes her living by ministering to those less healthy than herself was asked by a convalescent patient if she didn’t fear the effects of the numerous lay recruits on the future of the “protection” put down the novel,” said the patient. “I am tired of being read to. Talk to me awhile about nursing. Aren’t you afraid you will be crowded out?”

“Not in the least,” answered the young woman. “There is nothing alarming to us in the situation. The girls who, on the outbreak of every war or the publication of every novel treating of wars, are seized with an uncontrollable desire to do grand things in the service of suffering humanity are not a bit dangerous to us. They have an idea nursing is just about what I have been doing, that it consists solely of such pleasant duties as reading aloud from the pages of the latest books, of dressing becomingly in the uniform of a nurse, almost any woman with any pretensions of comeliness looks well in a sun-bonnet gown, white apron and cool, white collar and cuffs—or, at most, bathing the arm of an interesting hero with sweetly smelling cologne.”

MISS J. WILSON GAIRE.

MISS IDA HARNED.

MISS BARBARA ALBERTY.

Barbara Alberty, corner Seventh and Walnut streets, Appleton, Wis., writes as follows in regard to Peruna:

“For years I have suffered with backache and severe pains in the side. I doctored so much that I became discouraged.

“I told my doctor how much Peruna had benefited her and I sent for another, which did more to relieve me than all the other medicine I had ever taken.

“I used it faithfully for two weeks and it completely cured me. I have not had any pains since, anywhere, but feel like a new woman. I am truly thankful for what Peruna has done for me.”

Yours very truly,

Barbara Alberty.

Everywhere the people, especially the women, are praising Peruna as a remedy for all forms of catarrhal difficulties. Send for free catarrh book. Address Dr. Hartman, Columbus, Ohio.

Your Money's Worth.

WHERE? BURCH'S OF COURSE.

Glance at the following prices and see if it isn’t like trading dollars WHEN YOU BUY AT BURCH'S.

Precedents Disregarded.

The four Republican judges of the Court of Appeals, in an opinion written by Judge Guffy, the three Democrats dissenting, have overruled a long line of decisions by the courts of this and other States. It was in the case of a Henry county man, and holds that in cross-examination of a witness he can not be required to answer any question the answer to which would show that he had been guilty of any misdemeanor or accused or convicted of any crime; and that such facts can not be proved by other witnesses. The majority went outside of the record to make this ruling, which is said to be for the purpose of giving an easy chance to reverse the case of Jim Howard sentenced to hang for killing Gov. Goebel. Judge Hobson in a dissenting opinion scores the Republican majority for overruling established precedents and bringing the court into contempt by reversing itself.—Stanford-Interior-Journal.

JONES-MASON.

Fruit Hill Couple United in Marriage Wednesday.

Last Wednesday afternoon Mr. M. C. Jones and Miss Hattie B. Mason, a young couple living in the neighborhood of Fruit Hill, were united in marriage. The wedding took place at the home of the bride and was witnessed by a large crowd of the friends and relatives of the young people.

Richardson On Lindsay.

Ex-Senator Lindsay, who was to remove to New York and plunge immediately if not sooner into a \$50,000 law practice, has accepted appointment as Commissioner to the St. Louis World's Fair at \$5,000 per year. It is hoped that all danger of a riot among New York litigants clamorous for his services will be obviated by a sober second thought as to what a high old time ex-Senator Bill will have as commissioner.—Glasgow Times.

State Liberal to Educators.

Prominent women of Trenton, N. J., are interesting themselves in the purchase of the old British barracks, to be converted into a museum for colonial and early American relics. The barracks was the headquarters of British officers during the revolution, and at present is occupied by the Old Ladies' home.

A CURIOUS DISCOVERY.

Dear St. Paul, Minn. Is a Cemetery of Petrified Corpses.

For some time past, according to a dispatch from the New York Journal, the strange work has been going on near St. Paul, Minn., of digging up petrified bodies.

A whole graveyard full of them has been found at Ely, an old cemetery near this city.

When the first petrified bodies were found it was thought that some peculiarly effective embalming fluid had been used on the bodies. But as the work progressed, in moving the bodies from the abandoned burying ground it was found that nearly all the bodies were in a more or less advanced state of petrification.

The first graves opened were those of Henry Polkinghorn and Adam Penning, who died nearly ten years ago. The caskets were in an excellent state of preservation, and not a worm hole was to be found in them.

When the lids were raised, however, in the investigation as to why the coffins could not be lifted off by the men engaged in the work, it was found that the bodies had turned to stone. The flesh tins still remained, and the clothing, until exposed to the air, when it crumbled to pieces, looked as bright and flesh as it did on the day of the funeral. So heavy were the bodies that it took the combined strength of five men to remove them.

Up to the present time only about 20 bodies have been transferred from the old cemetery to the new, and of this number half have been found to be fully petrified, the remainder having become practically dust.

The case is a peculiar one, owing to the fact that alongside of a petrified body will be found the remnant of a body that has returned to its original dust, showing that the petrifying properties of the soil exist only in spots.

SOUND REASONING.

Why Everyman Would Not Let His Last Rig Go Out.

"You can believe this if you wish, but it's true, just the same," said a drummer to a Milwaukee Sentinel representative. "I struck a little town just north of the city a few days ago and wanted to hire a rig to go out into the country. There was just one livery stable in the place, and I entered into negotiations with the proprietor, but he said he couldn't accommodate me. That stumped me. There I was, stranded in a village with just time to get through with my business between trains if I could obtain a horse. The old man who kept the stable was sympathetic enough, but he stuck to it that there was nothing to be done. It was pretty cold and we were doing our talking outside the barn, so I slid the door open and walked in. There stood a top buggy and a respectable-looking horse was eating its oats in its stall.

"What's the matter with giving me that?" I asked.

"Naw, can't let that rig go out," said the owner.

"But why?" I persisted. "Doesn't belong to you?"

"'Yep,' came the answer.

"Is the beast sick?" I asked next.

"Naw. But it's like this. I can't let the last rig in my stable go out. If I do what am I going to do when some one else comes along?"

"And say, what do you think," the man who was telling the story went on. "He said that so impossibly that I actually took the train back to town and let my business go. As he put it there seemed something sound about his reasoning."

Injured by Licking Frost.

A farmer living in eastern Pennsylvania narrowly escaped being killed recently in attempting to lick the frost from the rails of the Philadelphia & Reading tracks. According to newspaper reports his tongue stuck fast and held him a prisoner until he heard a freight train approaching, when he managed to pull loose just in time to escape being struck. His tongue was badly lacerated and the wound is considered serious. Railway and Engineering Review.

American Books in Mexico.

Mexico buys more American books than does France, and nearly as many as Germany. Much of the trade is due to the large resident American population to be found in Mexican cities and to the demand from mining camps where Americans are living, and not a little is due to the growing spread of English among the Mexican people.

"Meat" for the Wise.

A man in love doesn't need eyeglasses—he is blind.

Pneumonia follows la grippe, but never follows the use of Foley's Honey and Tar, the great throat and lung remedy. Take no substitute. All druggists.

The favor of women makes a knight of a coward.

Couldn't help getting a cold, never cures it, but carrying home a bottle of Ballard's Horsepond Syrup, and using it as directed, will cure the worst kind of cough or cold. Price 25 and 50 cents. R. C. Hardwick.

Getting married makes golden platters of earthen dishes.

Or, Otto's Spruce Gum Balsam. A physician can prescribe Dr. Otto's Spruce Gum. The Formula is in the package. Cross your fingers, it's very good. Children are fond of it. Large size bottles for a Beautiful Complexion. Use On Carried's German Liver Powder. For sale by L. L. Elgin.

Love is discovered easier than in the stocking.

Eugene J. Hall, the post and publisher, says that one dose of Foley's Honey and Tar restored his voice when hoarseness threatened to prevent his lecture at Music Hall, Chicago. Nothing else as good. All druggists.

People in love have bells dangling from their eyes.

Salt rheum, or eczema, is cured by Hood's Sarsaparilla. So are all other body diseases.

Reverence every woman's opinion whether it be you right or wrong.

Are you sick? If so, investigate the merits of Herbin. It is a small concentrated medicine, the dose is small, yet it quickly produces the most gratifying results, digestion improves, the lips and cheeks lose their pallor, the eye becomes bright and the step elastic. Price, 50 cents. R. C. Hardwick.

Even in the darkest hour of earthly ill, woman's fond affection grows.

The profit of a gold mine depends not on the amount of rock crushed under the stamps, but on the amount of gold that can be extracted from the rock. In a similar way the human body and certain diseases do not depend on the quantity of food eaten which is taken into the stomach, but on the amount of nourishment extracted from it by the organs of nutrition and digestion. When these organs are diseased they fail to extract the nourishment in sufficient quantities to supply the needs of the body. The heart trouble, liver trouble and many other ailments. Dr. Piero's Golden Medical discovery, acting on every organ of the digestive and assimilative system, restores health and vigor. It cures diseases remote from the stomach, through the stomach from which they originated. Golden Medical Discovery contains neither alcohol.

Women need not look at those dear to them to know their moods.

Dear St. Paul, Minn. Is a Cemetery

of Petrified Corpses.

For some time past, according to a dispatch from the New York Journal, the strange work has been going on near St. Paul, Minn., of digging up petrified bodies.

A whole graveyard full of them has been found at Ely, an old cemetery near this city.

When the first petrified bodies were found it was thought that some peculiarly effective embalming fluid had been used on the bodies. But as the work progressed, in moving the bodies from the abandoned burying ground it was found that nearly all the bodies were in a more or less advanced state of petrification.

The first graves opened were those of Henry Polkinghorn and Adam Penning, who died nearly ten years ago. The caskets were in an excellent state of preservation, and not a worm hole was to be found in them.

When the lids were raised, however, in the investigation as to why the coffins could not be lifted off by the men engaged in the work, it was found that the bodies had turned to stone. The flesh tins still remained, and the clothing, until exposed to the air, when it crumbled to pieces, looked as bright and flesh as it did on the day of the funeral. So heavy were the bodies that it took the combined strength of five men to remove them.

Up to the present time only about 20 bodies have been transferred from the old cemetery to the new, and of this number half have been found to be fully petrified, the remainder having become practically dust.

The case is a peculiar one, owing to the fact that alongside of a petrified body will be found the remnant of a body that has returned to its original dust, showing that the petrifying properties of the soil exist only in spots.

A Warning.

To feel tired after exertion is one
thing, to feel tired before is another.

"Don't say the latter is laziness—it
isn't; but it's a sign that the system
lacks vitality, is running down, and
seems the tonic effect of Hood's Sar-
garis."

It's warning, too—and sufferers
should begin taking Hood's at once.
Buy a bottle today.

Man is never too old to love or
commit nonsense.

"I had a running sore on my leg for
seven years," writes Mrs. Jan. Forest,
of Chippewa Falls, Wis., "and spent
hundreds of dollars in trying to get
healed. Two boxes of Banner Sore
entirely cured it." No other salve so
healing. All druggists.

"But sister he is blind!" "So
much the better."

other day, indicating a respectable-
looking man in a London East end
street, according to Answers. "He's a
thief banker." Not that theives
are a thrifty lot, but there are ways
in which the 'banker' is useful.

"Just after a burglary, when the
detectives are paying surprise visits
and searching suspected persons'
dwellings, it would mean certain
conviction if they found, say, £30 or £40
stolen away in the thief's lodgings,
so any gold they've stolen is intrusted
to the banker for a few days. Some-
times a burglar, starting on a fresh
'crib-cracking' expedition, will leave
any gold he possesses with the banker,
in case he gets 'agged,' or lest he be
robbed by a brother thief.

"Again, if a housebreaker, is
'nabbed' just after a successful bur-
glary, and knows he is in for a long
sentence, he sends word to the banker,
and he takes care of the money for him
until the thief comes out of prison.
This man is known to be well-to-do,
and they know they can trust him."

"This banker has worked his game
for years. In one instance he paid a
convict's wife £1 a week for two
years, from money placed with
him for that purpose, while her
husband was in prison. In another
case a bank thief kidnapped him,
previously to undergoing 18 years'
penal, and as he charges a small
fee, gives no interest, and is said to
have invested the money at ten per
cent. for the whole time, he must
have done well. Why don't we stop
him? Well, he is too artful. He
keeps no money in his house, and
doesn't receive stolen goods, and we
can't prove anything. We caught an
imitator of his, though."

DREAD THE X-RAY.

Interesting Experiments Show That In-
sects Are Curiously Affected.

Some interesting experiments on
the effect of the Roentgen rays on
the lower animals have recently been
made. A box was made half of wood
and half of sheet lead. In the wooden
half a number of larvae of flies, bees,
beetles and other insects was placed
and the box was then put in the field
of the X rays.

The insect colony at once became
greatly excited, and after crawling to
and fro finally emigrated to a worm,
to the leaden half of the box, where
the rays could not penetrate.

The experiment was repeated, says
the New York Journal, many times,
and always with the same result.

A similar experiment was tried
with the blind larvae of a certain
beetle. A number of them was placed
in an open cigar box, which also contained
a metal box with an opening.
No sooner were the rays turned on than
the insects showed signs of distress.
Their uneasiness increased,
and in a little while they all sought
refuge in the metal box. The X rays,
it should be remembered, easily penetrate
wood and most other substances,
but cannot pass through metal unless
it is very thin plate.

As the larvae in the second experi-
ment were entirely sightless, their
perception of the rays must take
place through the nerves of the skin.

This assumption is in accordance
with the frequently observed fact
that prolonged exposure to the X
rays give rise, even in human beings,
to inflammation of the skin and causes
the hair to fall off.

NATURAL CONSEQUENCES.

Mrs. Bacon Wanted to Be Sure Her Let-
ter Was Mailed.

Mrs. Bacon—Did you mail that
letter I gave you this morning, John?

Mr. Bacon—Yes, dear.

You are sure you mailed it?

"Why, yes; to be sure I mailed it."

"You bought a stamp and put it on
it, didn't you?"

"Yes."

"Did you put it in the post office?"

"Yes, dear."

"You didn't put it in a box on the
lampost, did you?"

"No; I put it in the post office."

"And you are sure you put a
stamp on it?"

"Positive."

"You haven't got it in your pocket
now, John, have you?"

"Why, no, dear; can't you believe
me when I say I mailed it?"

"Well, I suppose I ought to; but
there are four joks in this paper about
husbands carrying their wives' letters
around for a month. You never did
that, did you, John?"

"No, dear; you know very well that
it wouldn't be a joke if I did,"—
Boston Journal.

Wm. T. Beckham, the Governor's cousin, is a candidate for Commonwealth attorney in the Shelby County election in 1903.

Congratulate the manufacturers of

INCREASING SALES.

Last Week's Prices on Tobacco
Fully Sustained.

Farmers Anxious to Move The Crop And are Awaiting a Good Season.

The sales of tobacco on the local market, this week amounted to more than 100 bushels and prices of last week were fully sustained. The character of the weed offered consisted of low leaf and lugs and receipts were small.

Receipts were fairly good but the rain did not produce a first class season for handling the weed, and the damp weather was followed by high winds drying out the tobacco very rapidly.

While much of the crop of 1900 has been sold a very small per cent has been delivered to the purchasers and the prizing in the barns has also been light. A real good "season" lasting several weeks would have the effect of moving a large portion of the crop, as farmers are anxious to rid their barns of stock on hand, and receipts would correspondingly increase.

When the bulk of the crop moves there will be some fine leaf to go on the market and higher figures have been quoted for the common grades will naturally be in order.

The quotations given in last week's Kentuckian fairly represent the market this week.

RELIEF IN DEATH.

Aged Fairview Lady Passes Away
After Long Illness.

Mrs. Elizabeth Boyd, widow of James Boyd and mother of Mr. J. L. Boyd of Fairview, died at her home in Farview Sunday night at the advanced age of 67 years. She had been a great sufferer from cancer for several years and death came as a welcome relief. Mrs. Boyd had been a member of the Baptist church for many years. The interment took place at Ebenezer church cemetery.

SECURED \$65.

Wingo Postoffice Entered by Burglars a Second Time.

Burglaries continue to keep the post office inspectors busy. Last Sunday night the office at Wingo was again broken into, where the thieves secured \$65 in stamps and money order funds. The same office was broken into and robbed about ten days ago of money order blanks, and postmasters throughout the country have been given the numbers of the orders to prevent their being cashed.

PERSONAL GOSPI.

Editor L. W. Gaines, of Elkhorn, was here Tuesday on business.

Miss Edith Bingham, of Cadiz, is visiting Mrs. Walter Wilson.

Mrs. Lloyd W. Whitlow is visiting relatives in Metropolis, Ill.

Mr. W. R. Howell and family have broken up house-keeping, and are boarding at Mr. E. Wood's.

Mrs. E. J. Foster has returned from a visit to relatives in Clarksville.

Miss Sarah Scils, of St. Louis, is the guest of her sister, Mrs. Jas. A. Radford.

Miss Annie McComb, of Louisville, is the guest of Mrs. J. E. McPherson on South Main.

Miss Marguerite McCulloch left for Cleburne, Texas, yesterday, where she will make her home with her sister.

Mrs. Walter A. Radford, who has been in bad health for some time, went to Louisville yesterday, where she will spend a few weeks at an infirmary.

Mrs. J. H. Anderson, who had been in New York City with her husband for several weeks, returned home Tuesday. Mr. Anderson will not be home for a week or more.

Has Pneumonia.

The wife of Dr. J. R. Payne, of Pembroke, is dangerously ill with pneumonia, both lungs being involved.

Wise men lead on foot.—Athenaeum

FARMER FIRED UPON

By Would-be Assassin And Loses An Arm.

Cadiz, Ky., March 12.—Mr. Jos. H. Ballard, who lives on the William Humphries farm, five miles East of this place, was shot from ambush about 8 o'clock last night. Ballard was in the act of putting up his horse and when near the stable was fired upon, the load of shot taking effect in the right arm. The limb was badly shattered and had to be amputated. It was taken off just above the elbow. Ballard will recover. The would-be assassin is not known.

Deputy Sheriff L. E. Barnes, of this city, arrested Wm. Ethridge on the farm of Mr. J. R. Caudle, near Julien, Tuesday. Ethridge is suspected of having committed the crime. He was delivered to the Trigg county authorities and taken to Cadiz.

Wheels to Rent. Wheels to sell. Wheels, wheels, wheels, all kinds of wheels. Guns, Pistols, also all kinds of light machinery repaired. All work warranted and prices correct and moderate.

to be paid at time of service. Re

turn privilege given if horse is alive

and in my possession.

RADFORD SALE.

Great Present and Sales

Raised \$50,000.

The sale of personal property at Radford, by Mr. Jas. A. Radford yesterday, was attended by 1000 to 1200 people despite the inclemency of the weather. Many ladies were present and the sale of household furniture in the afternoon was very animated.

The live stock and other branches of the sale out of doors took up all of the morning and some of the afternoon.

A lunch was served about 1 o'clock to everybody present and the sale was resumed without much delay. The property nearly all brought good prices and the aggregate sum realized was about \$50,000.

The sale was the largest of the kind ever held in the county.

DEATH OF MRS. HUNT.

Well Known Lady Passes Away

In South Christian.

Mrs. Lockett Quarles Hunt, of Garrettsburg, Ky., died yesterday morning at 4 o'clock after a long illness, aged 60 years.

The Tennessee State Senate has passed a bill which provides that where a fire insurance company refuses to pay losses within a certain time, a penalty of 25 per cent shall be added to the face of the policy and the company, barred from the state.

There is no doubt about the success of the Old Time Fiddlers Contest. A round-trip rate of one and one-third fare has been secured from all points between Bowling Green, Clarksville and Hopkinsville, and between Henderson and Hopkinsville. The same rate has been secured from all stations between Paducah, Henderson, Central City and Hopkinsville on the L. & N. R.

Every contestant heard from is very enthusiastic about the contest and promises to bring a crowd from his own town.

There is no doubt but there will be hundreds of visitors in our city on the day of the contest and it promises to be a long to be remembered occasion.

Mrs. J. H. Anderson, who had been in New York City with her husband for several weeks, returned home Tuesday. Mr. Anderson will not be home for a week or more.

Has Pneumonia.

The wife of Dr. J. R. Payne, of Pembroke, is dangerously ill with pneumonia, both lungs being involved.
